

FY 2011-12

Spalding Community Services District Budget

**“Providing a Safe and Wholesome
Recreational Experience for Visitors and
Residents Since 1985”**

SPALDING COMMUNITY SERVICE DISTRICT HISTORY

FY 2011 – 2012 BUDGET

“Providing a Safe and Wholesome Recreational Experience for Visitors and Residents Since 1985”

On June 11, 1985, the Lassen County Board of Supervisors adopted Resolution 84/85-86 ordering the formation of the Eagle Lake Community Services District (CSD) without election and designated the initial Board of Directors. On September 1, 1992, the CSD Board changed the name of the District from Eagle Lake Community Services District to Spalding Community Services District.

The District is comprised of approximately 360 Acres and serves a population of between 1000 – 2000 (summer visitors) people. There are approximately 368 Single Family Dwellings, 12 Multi Family Dwellings, 80 Mobile Homes and a variety of seasonal vacation sites.

There are three major functional areas that the district manages. These are Recreation, Wastewater and Fire. The District currently employs one full time (Wastewater Operator) and three part time (General Manager, Bookkeeper and Clerk) employees. SCSD also utilizes contract personnel for engineering, legal and wastewater services. Occasional part time workers are employed to assist with special projects. The Fire Department currently has 18 volunteers.

The District has a five person Board with the Board electing a Chairperson each year. Each Board member serves a four-year term with no term limit. All five of our Board members were elected in December 2010. The next election will be held in November 2012 to fill two positions. Board Members must be registered voters of Lassen County and live in the area served by the District.

The major funding for the District comes from taxes or payment for services. Due to the Proposition 218 legislation, property related taxes cannot be raised without the approval of the voters within the district. It is important that the District collect the taxes and fees in order to facilitate its operations. Currently, there are several thousand dollars of uncollected revenue in the Sewer O& M fees, as well as unpaid taxes for the Sewer Bond. It has also been noted that not all parcels within the District have been paying Fire taxes since the County Tax Collector does not send a bill for parcels that would not normally pay property tax. The District will be working on correcting this situation and billing those parcels with the O & M billings. New revenue sources need to be explored so the District can upgrade and/or purchase equipment, or provide for new programs in the future. Grants should be a priority especially for the replacement of Fire Department equipment.

SCSD's GENERAL MANAGER's MESSAGE

Since joining the District in December 2009, the staff and I have learned much about the operations of the Fire, Wastewater and Marina. The overall management of the operation has taken on a new personality, and much of the unfinished work has been completed. The remodel is complete and the community should see an entirely new District operation.

Having a professional budget document is key so that the community can trust in the work of those involved in the District. There has been much research into the various aspects of the operations and finance of the various departments. What has been discovered has been documented so that those who come in the future will understand and appreciate what the small staff and Board members do for this community. This is the second year for the format of this budget and does contain minor changes from last year.

Of the three Spalding functions (Fire, Wastewater and Marina), the most worrisome is the Fire Department. Funding comes strictly from a fire assessment tax that has not been changed since its inception. Much of the equipment is aging and will in the near future need to be replaced. Grants will be aggressively looked into, and the \$21,800 is for such a grant in this year's budget, however many of the Federal grants that were common in the past are no longer available. Many of these grants require a percentage of **matching funds, as does the current one incorporated into this budget, a 50% match**. The District needs to explore other avenues of funding to support our fire agency! Boot campaigns and other activities that promote donations are highly encouraged.

The Marina operation is dependent upon receipts from parking and the boat dock facilities. The fees have remained unchanged over the past three seasons. This past year, we did focus on collecting unpaid parking citations and establishing a system for us to collect on them in the future. There are less than 20 outstanding citations remaining for the 2009 and 2010 seasons. We realized approximately \$1,300 through the collections from those cites. There is a need to establish a capital improvement fund for recreation.

The Wastewater fund seems to be sufficiently funded at this time. One concern is that there is only a single maintenance person to take care of all the issues that may arise in the District. Also, when that person is gone on vacation or other approved leave, there is not a backup person to do necessary work. Another part time person needs to be hired that could be trained to back up the Wastewater Operator and do maintenance in other departments as necessary. Staff has worked diligently on the collection of outstanding Operation and Maintenance fees and has collected a number of those accounts.

Finally, it does not appear that money that has been left over in prior years (called Carry Over) has been addressed in previous budget documents. You will find it outlined here, with the suggestion that a substantial percentage of it be placed in the department's capital improvement fund. As was said earlier, equipment and facilities will age and there is a need to put away funds for the replacement of items in the future. We should also have a reserve fund that could be utilized for unforeseen issues that may arise (like a federal requirement to provide health insurance). With these changes, the District should function and stay solvent well into the future. I want to thank all the staff that worked long and hard to help create this budget document. This staff is very dedicated!

CSD - COUNTY FUND SUMMARY

(Nov. 16, 2007)

Spalding CSD maintains four (4) budgetary funds and five(5) agency funds in the County Treasury. The budgetary funds are the operating funds of the district. Three (3) of the agency funds (often referred to as trust accounts) are for management of the Spalding CSD Limited Obligation Improvement Bonds secured for the construction of the wastewater treatment facility. Management of all funds is the responsibility of the CSD. The county provides very limited oversight and in most cases, if not all, proper accounting tools must be used by the CSD.

Budgetary funds require the adoption of an annual budget. Oversight is the responsibility of the District Board and the General Manager. Expenditures of the district are paid through the County Auditor's Office only after review and approval of the General Manger and then the CSD Board.

Fund 225 Spalding CSD – Fire – This fund is used for fire protection operations. Its primary revenue comes from a special tax approved by the district voters in a special election in February 1998. An agency fund **306-0061-7603383 – Spalding CSD Fire Improvement Fee Trust** – was established by Resolution 09-005. The fire capital improvement fees collected shall be used to finance only the public facilities described or identified in a Fire Capital Facilities Improvement Plan of the district.

Fund 227 Spalding CSD – Sewer – This is a capital improvement fund created for the Spalding Sewer Project. The fund was created sometime prior to 1995 and at one time received revenue from a parcel assessment designated to assist in the creation of the wastewater facility. All construction fiscal activity has been managed through this fund. Program Names were assigned during project construction to assist in tracking activity by revenue source. Now that construction is complete, the district board should give consideration to creating a new fund for wastewater treatment operations.

Fund 231 Spalding CSD – Recreation – This fund is used exclusively for recreation facility operations. Its revenue comes primarily comes from parking and dock permits. An agency fund, **306-0061-07603302 – Spalding CSD Recreation Trust** – was established in 1997 to assist in tracking recreation activity. It has more recently been used as a capital improvement fund for the marina construction.

***Fund 222 Spalding CSD – Administrative** – This fund was established to fund the Administrative overhead involved in the Operations of the District. The revenue to support this fund comes from rental of the building, any interest in the fund, SB90 claims and Administrative Allocations from the other three departments.

Agency Funds have been created for the administration of the Spalding CSD Limited Obligation Improvement Bonds Series 2007A and 2007B. A better description of the funds allowable uses can be found in the bond documents. The 3 Sewer agency funds are:

307-0071-7603374 Spalding Bond Redemption Fund – Per the Tax Certificate document dated September 28, 2007, the Redemption Fund will be used primarily to achieve a proper matching of revenues and debt service within each Bond Year. The source of revenue will be annual parcel assessment collected on the secured property tax roll and direct bill assessments.

307-0071-7603375 Spalding Bond Improvement Fund – This fund will receive amounts deposited from the New Money Portion of the Bonds and will be used to pay the costs of the Project and a portion of the costs of issuance of the Bonds.

307-0071-7603376 Spalding Bond Debt Service Reserve – This fund will be used to hold the minimum reserve amount described in the bond documents.

In summary, Spalding CSD maintains nine (9) funds within the Lassen County Treasury. With the exception to pooled investments, the County offers only limited oversight in the management of these funds. It is the CSD's responsibility to maintain and manage appropriate accounting records.

GOALS FOR FY 2011 – 2012

2010-2011 GOALS

1. Obtain a Fire Insurance Service Office (ISO) rating of 8B by the end of the Fiscal Year.

In progress

2. Complete the Remodel and Maintenance Building Project.

Completed 10/10

3. Generate additional Recreation revenue through increased enforcement of the Marina parking regulations.

Completed 3/11 – Have links to California and Nevada DMV to obtain registered owner info for violators.

The following are the top three goals as set by the Spalding Community Services District Board for the fiscal year. Staff will be directed as to how to proceed with each goal by the General Manager and the progress of each will be tracked. Each goal has taken into consideration the fund and time limitations that may be associated with each one. A report of Goal Accomplishments will be incorporated into the next fiscal year's budget document.

2011-2012 GOALS

1. *Obtain a Fire Insurance Service Office (ISO) rating of 8B or lower by the end of the Fiscal Year.*
2. *Find a source of revenue to fund capital purchases for the Fire Department's aging equipment.*
3. *Create a plan for the Marina Parking Lot maintenance project.*

BUDGET SUMMARY FOR FISCAL YEAR 2011 - 2012

The Fiscal Year 2011 – 2012 budget total is \$462,292 with revenues of \$392,247. The shortfall will be made up through the use of funds that have been carried over from previous years (indicated in red). The breakdown is as follows;

BUDGET SUMMARY	Admin	Fire	Sewer	Recreation	TOTAL
TOTAL REVENUE & TRANSFERS IN	\$120,797	\$47,450	\$186,000	\$38,000	\$392,247
TOTAL EXPENDITURES AND TRANSFERS OUT	\$120,797	\$68,797	\$233,686	\$38,569	\$462,292
TOTAL CASH FUND BALANCE REQUIRED	0	(\$21,790)	(\$47,686)	(\$569)	(\$70,045)
CASH BALANCE AVAILABLE 6/30/10	\$33,637	\$35,038	\$311,679	\$41,342	\$424,696
CASH BALANCE AVAILABLE 4/30/11	\$22,267	\$3,305	\$205,803	\$40,986	\$272,361
PROJECTED CASH BALANCE 6/30/12	\$22,267	(\$2,485)	\$205,803	\$40,417	\$266,002

It is projected that the District will have a cash balance of approximately \$266,002 by June 30, 2012. The Sewer Fund has a need to take some of the cash balance and begin to establish a capital fund to provide for replacement and future needs of the sewer infrastructure. No capital projects exist or are left over from the prior FY in the 2011 – 2012 Fiscal Year.

The District is financially stable for this budget period. Fiscal Year 2012 – 2013 will not fare well. **The Fire Department's cash balance will be very low or depleted.** It would be fiscally prudent to review the fire assessment fees and begin to educate the public about the costs of running the fire department and make suggestions for increasing and/or restructuring the annual assessment. There is a definite need to establish a vehicle replacement fund given the current condition of our Engines and Tenders.

We are uncertain about the reimbursement of the SB90 funds since we have not yet received funding requested last fiscal year.

Below is a summary of the actual expenses for FY 2009 – 2010 as recorded by Lassen County.

Formation and Bond Issue Information	
Resolution of Intention	2004-2
Date of Resolution of Intention	1/20/2004
Resolution of Issuance	2007-3
Date of Resolution of Issuance	7/17/2007
Date of Bond Issue (Dated Date)	9/2/2007
Final Maturity	9/2/2047
Authorized Debt Amount	\$9,450,000
Amount of Bond Issue	\$9,427,703
Interest Rate Range	4.25%
Bond Call Notice	30 days
Redemption Premium	0%
Foreclosure Covenants	150 Days
Reserve Fund Requirement	\$492,699
County Fund Number	Temp 2

Balance as of March 30, 2011	
Improvement Fund	\$391,351
Redemption Fund	\$239,620
Reserve Fund	\$148,695

Bond Improvement Fund: 307-0071-7603375

cost of the improvements, including payment of the incidental expenses in connection with improvements, and repaying the District's bond anticipation notes;

Bond Redemption Fund: 307-0071-7603374

sums received by the Treasurer from the collection of unpaid assessments, and of the interest and penalties to pay the debt service;
