SPALDING TRACT PROPERTY OWNERS

Happy Spring Everyone! The good news this year is that we have gotten twice as much rain since July 1, 2014 as we did as of this time last year. The bad news is the lake has not come up. We are in the fourth year of drought and it appears as though the lake will drop even further this year. As soon as I hear from Dr. Bateson, I will get the updated levels on our website.

We have set the dates for the three Pancake Breakfasts for 2015! They are May 25, July 5 and September 7. Please help support the function of the Fire Department by attending these events. Did you know that the only other funding the Fire Department receives comes from a property tax assessment that has not been changed in 30 years? We need all the donations and extra money from these events so we can support this vital function!

In an attempt to save money in the future, the District purchased a solar system that generates electricity for the Fire Department, Community Hall, Maintenance and Administration buildings. It started generating electricity on January 12, 2015. This system will pay for itself in eight years and then we will have free electricity for 17 years after that! I have placed a link on our website www.spaldingcsd.org on the home page so that you can see how much electricity this system is producing daily.

Our website has another new item; The Community Calendar. It is on the "News and Events" page. You will be able to look at this calendar throughout the year to see what is going on in Spalding. If you have an event you would like to place on the calendar, just email it to eaglelakescsd@citlink.net and we will get it on the calendar.

For those who haven't heard, we had a significant storm go through Spalding on February 6, 2015. A number of trees came down and several homes were damaged. We were without power for five days! Cleanup and repair has been underway.

An effort has begun to help spark volunteerism in our community. You will be seeing a survey for you to fill out in the near future. Please take some time and give us your thoughts. Our Board is interested in what you would like to see done in our community. Without you, we would never be able to build this community into one we can all be proud of calling home (or second home)!

Chris Gallagher, General Manager, SCSD and Staff!
