**SPALDING TRACT PROPERTY OWNERS**

Happy end of summer to all! This summer has been a very mild one here at the lake. A couple of changes have take place and a few more to come.

The District has created a beautiful park facility next to the District office. By next season, we will have a picnic table and BBQ that people can use. Also, the County has nearly completed the new "Fish Park" at the North end of the Marina. It will be another wonderful facility to utilize next season! We are planning to reseal the Marina parking lot either this fall or next spring. We want to protect this valuable resource! Please visit our website, [www.spaldingcsd.org](http://www.spaldingcsd.org) for updates.

There are still a few property owners who have not hooked up and/or paid for operations and maintenance fees. Lahontan has issued new Cease and Desist orders and we had to appear before them to discuss some of the cases. We would like to encourage all owners who have not hooked up to the system to do so before the winter sets in. Also, we have had a couple of issues with people who have not checked and cleaned the filters on the septic tanks. Please do this annually to avoid backups! There is an explanation of how to perform this check on our website under the Wastewater page.

The Fire Department is continuing its fund raising drive to purchase a four wheel drive ambulance. We have collected approximately \$2,500 to date. As you know, the majority of our calls are medical in nature, and during the winter, we need a vehicle that can get to the call. We are shooting for \$50,000 and have applied for a grant with FEMA to pay for most of this vehicle. Please donate if you can by sending a check and marking it for the Ambulance Purchase. Our Fire Chief, John Rasnic, has completed an EMT program and excited about his new learned skills. John is enthusiastic about his volunteer job and dedicated to our community!

You will notice a change in our current billing statement. Our new Bookkeeper, Diane Tackett, is doing a wonderful job in managing our QuickBooks billing system and making a more user friendly statement. If you haven't noticed, we now accept credit cards via our web site. You can pay your O&M bill via a credit card. There is an \$8 per transaction fee with credit card use.

Thank you!

Chris Gallagher, General Manager, SCSD
