SPALDING TRACT PROPERTY OWNERS

The Spalding Community Service District would like to wish everyone a very happy New Year, and remind you that your septic tank may need to be marked.

In the winter, the lids become covered with snow. For tanks that are located anywhere a delivery truck or emergency vehicle might drive, please take the precaution and clearly mark your tank so that damage does not occur.

We would also like to introduce the new General Manager who was hired on December 18, 2009. His name is Chris Gallagher. He was the former Susanville Police Chief from 2003-2006. He brings over ten years of management experience with him to the job, as well as a Masters Degree in Public Administration from Golden Gate University. Chris is excited about the challenge of this new position and has hit the road running with the various projects and administrative updates that he hopes to implement shortly. Chris has a plan to have a community get-together sometime in the spring so that people can come and get to know him.

The projects that are currently underway involve the remodel of the SCSD building, working with the County to get the picnic area installed by the boat launch, and general work on the wastewater system. These projects will keep our four employees busy throughout the year! Please keep an eye on our website for events, meetings and other items of interest in our district.

We are excited about what this new decade has to offer and look forward to working with you in the year to come.

Thank you
SCSD
