SPALDING TRACT PROPERTY OWNERS

Happy Fall to all! If you have not been to the lake lately, you would be sad to see the water level! Dr. Bateson reported in September that the lake has reached its historic low level recorded in 1935. With all the predictions coming from the national weather centers for an El Nino this winter, we are hoping that the lake level will come up next Spring. Having that thought, Project Eagle Lake Trout and a number of local volunteers and contractors have added 12' onto the South Launch Ramp after obtaining permission from State Lands. Our hope is that when the water level comes up and we are able to use the ramp, there will be sufficient ramp to launch without having the boat trailer tires run off into the mud. The District appreciates the help of all those involved in this project!

Many fund raising efforts have happened this past summer by groups interested in assisting the Fire Department. The Quilters brought in \$1,603 from their quilt raffle, Bingo brought in \$1,101 during the summer games, the Pot Luck Dance held last month brought in \$753, and the rental of our Fire Engine by Cal Fire brought in nearly \$58,000! Thanks to all those who have helped raise money to support our Fire Volunteers!!

Our new solar system continues to perform well. It is nearly paying 100% of our electrical costs at the District Office complex. This is exciting and is saving the District money. The system will be paid off in eight years.

Please check out the Community Calendar on the "News and Events" page of our website. You will be able to look at this calendar throughout the year to see what is going on in Spalding. If you have an event you would like to place on the calendar, just email it to eaglelakescsd@citlink.net and we will get it on the calendar. There are many events listed that you may want to attend.

Winter hours have begun at the District Office. We will be open W – F from 9:30 to 3:30. Remember that the lobby is always open so that those with PO Boxes can pick up their mail.

The District once again is the recipient of the Special District Leadership Foundation's Certificate of Transparency. You can review our website at www.spaldingcsd.org to view many of the required items necessary to achieve this recognition. If you ever have any question regarding District operations, please don't hesitate to call 530-825-3258.

Please don't forget to winterize your summer residences before you leave for the winter.
Chris Gallagher, General Manager, SCSD and Staff!
