March 2019

Weather: Since the beginning of the year, we have received about 3.5 feet of snow and about 6 inches of rain. Both of these numbers are significant highs in comparison to the last ten years. Hopefully with the increase precipitation and snowfall, our lake will continue to rise back to a healthy level.

Important Billing Information: When you pay your sewer bill by check, please make sure to include your parcel number on your check. This is so we know what property to assign the payment to.

Paying Bills Online: If you are interested in paying your quarterly sewer bill online, you can go to the Spalding website (address listed above) and pay your annual or quarterly sewer bill through our website by credit card.

Going Paperless: If you would like to receive your sewer bill by email instead of by mail, you can provide your email address to the district office and let us know you want your invoice via email. Once you sign up for this you can receive your bill in your email.

Is Your Information Current? Is your information current with the District Office in Spalding? If you had a change to your billing address, phone number or email address, please update your new information with the District Office. It is important that your information is current with us so we can make contact with you.

New Rescue: In November of 2018, the Spalding Volunteer Fire Department took delivery of a new rescue to serve our community. The new rescue is four wheel drive and can make access to the districts snow covered roads during the wintertime.

Another Fire Department Grant: The Spalding Volunteer Fire Department has received another grant from FEMA. We were able to purchase new self-contained breathing apparatus, structure and wildland personnel protective equipment, handheld radios and other much needed equipment.
