SPALDING TRACT PROPERTY OWNERS

Hello again folks! We have begun our 2011 summer season which has really started out slow! The winter went long and people are just starting to get up here in the middle of June. We are really looking forward to a good Fourth of July weekend and some beautiful summer sun!

Lake levels have come up a bit from the lows of last season. As of June 15th, the lake is 6" higher than it was at this same time last year. We have plenty of launch space for most any size boat to get out of our South Launch Ramp. The fish are healthy and limits have been the norm since the season started. Please visit our website, www.spaldingcsd.org for updates.

Our wastewater system is functioning well. We just had our flow meters calibrated and now have a better idea of the exact amount of effluent coming into the system. There are still a few property owners who have not hooked up and/or paid for operations and maintenance fees. We are doing whatever we can to encourage those folks to be a part of the system as soon as possible. Lahontan has been in contact with us and will be sending a new Cease and Desist letter out to those who have not hooked up to our system. We would also like to encourage the owners to check the filter on their septic tanks sometime during the year. An explanation of how to conduct the filter inspection is on our website under Wastewater.

The Fire Department has launched a new fund raising drive to purchase a four wheel drive ambulance. As you know, the majority of our calls are medical in nature, and during the winter, we need a vehicle that can get to the call. We are shooting for \$50,000. Please donate if you can by sending a check and marking it for the Ambulance Purchase. Our Fire Chief, John Rasnic, has completed an EMT program and excited about his new learned skills. John is enthusiastic about his volunteer job!

The major way we are communicating with our customers these days is through our website. We update it frequently and are trying to keep you all informed on what is going on in our District. Please log in often and keep up with things as they happen! And by the way, we now accept credit cards via our web site. It will cost \$8 per transaction.

Thank you!

Chris Gallagher, General Manager, SCSD
