SPALDING TRACT PROPERTY OWNERS

Hi Everyone! Summer has begun and people have returned to have fun at the Spalding end of Eagle Lake. The trout look healthy and fishermen are reporting good catches. Unfortunately, the lake level is very low this summer. We are doing whatever we can to make launching at the Marina available throughout the season!

Beginning July 1, 2012, the quarterly O&M fee will increase to \$78. However, you can choose to pay annually, \$300, saving \$12 per year. Please call Virginia if you have questions about what you may owe to pay all of next year's O&M if you have a credit.

The Fire Department is busy already this season with 5 calls last month! Our 1995 Ford 4X4 Ambulance is here and we are making the final upgrades to it so that we can begin using it as soon as possible. We donated the old Ambulance to Herlong Volunteer Fire Department. They have many medicals on HWY 395 and their Ambulance is out of service. They have been assisting us with training our personnel as First Responders, and the Board felt this was a good gesture for their help! The Fire Department still needs your donations for the purchase of the Ambulance! We spent \$10,000 and have collected almost \$7,000. Thanks to all those who have donated!!!

The District has a new function and will be providing some mail service. We are currently installing PO style boxes in the lobby of the District Office which will be available to anyone interested. You will retain your street address, but can choose mail delivery to a secured box. We will also be installing neighborhood boxes near Heritage Realty to clean up the mailbox cluster. All these should be available by mid-July. Please let us know which option interests you! Our goal is to clean up the unsightly mailboxes that exist in Spalding.

The major way we are communicating with our customers these days is through our website. We update it frequently and are trying to keep you all informed on events happening in our District. Please log in often and keep up with things as they happen!

Thank you!

Chris Gallagher, General Manager, SCSD
